EE381

Format of Lab Report

The report needs to follow the standard lab report format below. You will be graded based upon the content and completeness of your lab report.

Your entire report must be typed. Each group needs to only submit one report. You need to submit your report file (pdf) into Dropbox within Beachboard.

Format of Lab Report

- Title page
    - o Include the topic of the lab, names of members in the group, due date
- Introduction
    - o What is the purpose of this lab?
- Procedure
    - o Explain what you did.
- Results and Discussion
    - o Show your results. Include any specific items mentioned in the lab handout.
    - o Explain your result. Are your results what you expected them to be? Why? Why not?
    - o Comment on lines of the Python codes (if possible).
- Conclusion
    - o What did you learn in this lab?
    - o What aspects from lecture were you able to apply?
    - o What challenges were you able to overcome?
    - o Where did you get stuck and/or where did you have to make assumptions?
- Appendix
    - o Put your complete Python codes here
